Northfield, NJ 08225

September 12, 2010

To Whom It May Concern,

I had been in business as a general contractor for 12 years when I first worked with Connie Lepre in 1993. At the time she was operating a business called Kitchen & Bath Design Center. From the first project I did with Connie, I was excited and impressed by her ability and talents. She approached her designs as if she would be actually using the kitchen or bath herself; she really got into the nuts and bolts of the project. I had not worked with anyone who took this approach to cabinet design prior to Connie, and have not worked with anyone like her in the last 17 years.

Connie is unabashedly opinionated, and will not hesitate to offer suggestions that she feels are in the best interest of the homeowner. She will not just accept the space she is presented with. If she feels a wall should be moved or a window installed to make the final product better for the customer, she will work with the architect and builder to insure the customer gets the best result possible.

Connie Lepre is my kitchen and bath cabinet designer of choice because, to date, she is the best I have worked with. Her intellect and creativity are unsurpassed and I highly recommend her to anyone looking for a kitchen and bath design company.

Sincerely,

Regina Builders, Inc.

John H. Regina, President
